Utilities and Services

What we can manage in the
production process

Our international network

Automation Alliance Group

Automation Alliance Group is a consortium of leading control systems integrators from around the globe.

The Alliance focus is helping clients to drive quality, consistency and productivity.

Control System Integrator Association

Since 2014 Autware is certified CSIA. The Control System Integrators Association (CSIA) seeks to enable industries everywhere to have access to low-risk, safe and successful applications of automation technology by advancing the business practices of the system integration industry.

Manufacturing Enterprise Solutions Association

The MESA purpose is to improve business results and production operations through optimized application and implementation of information technology and best management practices.
