# AVEVA

Accelerate to Innovate

Discover design time savings to boost engineering efficiency and deliver project innovation

Migrate from AVEVA™ PDMS to AVEVA™ E3D Design

Detailed design project scenario

50 user licenses **+3** system administrators

50:50 divide working on new and brownfield projects

Working **48** weeks at **40** hours each

3D Work	AVEVA PDMS Seats	Average AVEVA PDMS Man Hours	Average AVEVA E3D Man Hour Savings
Piping	30	57,600	**11,520**
Structural	15	28,800	**5,760**
HVAC/Electrical	5	9,600	**1,920**

Average annual saving of **19,200** engineering hours
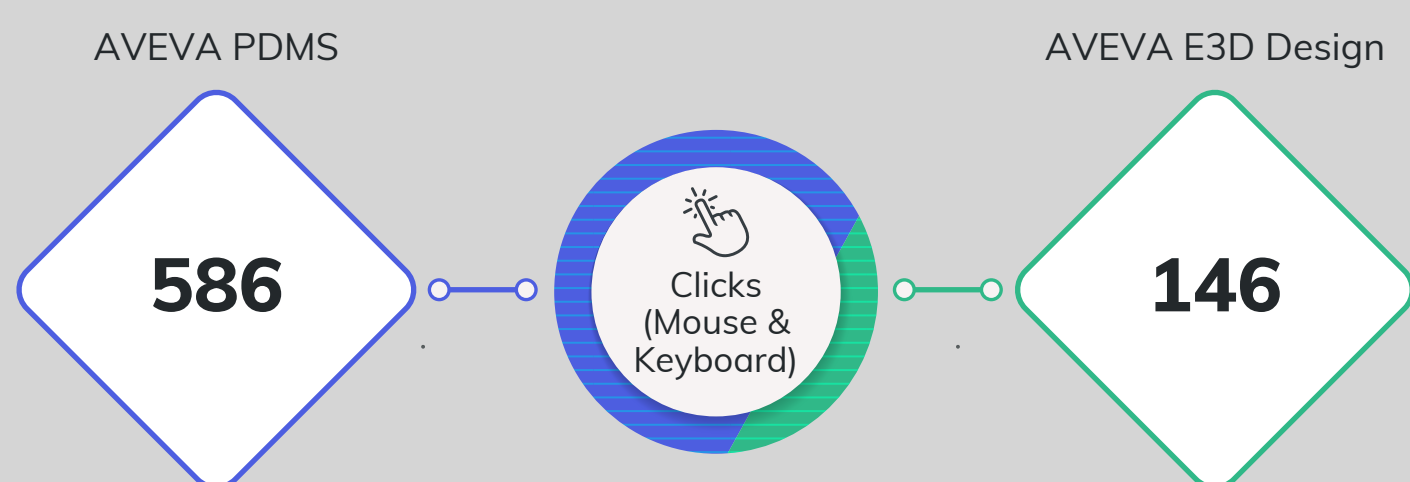

Time saved with AVEVA E3D Design

Increased engineering efficiency

Accelerate innovation to stay ahead

AVEVA E3D Design enables more time to focus on innovative engineering design and less on administrative tasks.

Tried and tested by customers to improve speed, quality and profitability

AVEVA PDMS

Clicks (Mouse & Keyboard)

AVEVA E3D Design

146

Less clicks to **greater** efficiency

Figures from a customer test case for modeling a basic plant

> Our migration to AVEVA E3D is a strategic investment. It took just 10 weeks to future-proof our business and equip our teams with next generation design capabilities
>
> – Tekfen Engineering

Get fast access to AVEVA E3D Design via Unified Engineering in the Cloud

Fast & Efficient
- Achieve continuous collaboration between project participants and reduce handover requirements
- Increase flexibility & agility throughout the CAPEX phase

Flexible & Scalable
- Accelerate project startup and shift implementation requirements from your IT team to AVEVA
- Leverage new business models

Remote Working
- Enable remote access to train, maintain and transfer data from anywhere
- Seamlessly transition Digital Twin to Operations & Maintenance

Secure & Available
- Shared platform project participants gives governed data access to those who need it & keeps others out
- Reduce pressure on IT departments for implementation, support, and maintenance

Start your migration journey to AVEVA E3D Design

Our team are ready to discuss your business requirements to get your projects up and running with minimal disruption. Get started within days on cloud or on premises.
