If any Software contains or is provided with an application program interface and Customer is expressly permitted to utilize such application program interface with other software, applications, or other interfaces pursuant to the Agreement (*e.g.*, with AVEVA's prior written consent or if expressly permitted by the Documentation), then Customer's use of such application program interface with such other software, applications, or other interfaces shall require Customer to obtain from AVEVA a separate license (*e.g.*, the appropriate CAL or Client Connection) for such usage of the application program interface.

3.6 <u>AVEVA Trademarks</u>. Unless otherwise expressly stated in this Agreement, AVEVA retains all goodwill in and Customer has no rights in any trademark owned by AVEVA, whether registered or unregistered, including but not limited to the following: AVEVA, the AVEVA logo, Wonderware and InTouch. A list of AVEVA trademarks can be found at https://www.aveva.com/en/legal/trademarks/

4. VERSION LIMITATIONS.

The Software, and various components thereof, contain certain version numbers (such as version "6.5"). The Agreement permits Customer to install one copy of the Software, whereas (i) some Software may allow the same version number as the Software version number listed on the Transaction Document (or in an Update that is part of the Software licensed) on the number of computers authorized hereunder (for example, if the version number listed for a particular component of the Software is "6.5", then Customer may install a copy of that component of the Software having a "6.5" version number, but not a "6.6" version number), and (ii) some Software may allow the same or lower version number as the Software version number listed on the License File or Transaction Document (or in an Update that is part of the Software licensed) on the number of computers authorized under the Agreement (for example, if the version number listed for a particular component of the Software is "6.5", then Customer may install a copy of that component of the Software having a "6.5" or "6.0" version number, but not a "6.6" version number).

5. ADDITIONAL LICENSE PROVISIONS.

5.1 <u>Per Server/Concurrent Use Basis</u>. If the Software has been licensed on a Per Server/Concurrent Use basis, then the following additional terms and conditions shall apply:
(a) If Customer has licensed the Software on a Per Server/Concurrent Use basis, then the Software may be installed on a single Server that will be the designated Device under the Agreement, and the maximum number of Devices that may access or utilize the services of the Server Software at a given point in time is limited by the number of concurrent sessions specified in the License File. The services of the Server Software are considered to be accessed or utilized when there is a direct or indirect connection between a Device and the Server Software running on the Server (regardless whether the Server Software is accessed or utilized using the Device Software, Third-Party Products or an application developed by Customer). For the avoidance of doubt, one Device will require multiple concurrent sessions (and corresponding licenses) if the Device accesses or utilizes, directly or indirectly, concurrent sessions of the services of the Server Software.

5.2 <u>Per Device Use Basis</u>. If the Server Software has been licensed on a Per Device Use basis, then the following additional terms and conditions shall apply:
(a) If the Server Software is licensed on a Per Device Use basis, then a separate CAL must be purchased for each specific Device that accesses or utilizes Server Software (which may access or utilize the services of the Server Software on any number of Servers running the Server Software) and each Per Device CAL must be dedicated to a single Device. For the avoidance of doubt, one Device will require multiple CALs if the Device accesses or utilizes, directly or indirectly, concurrent sessions of the Server Software.

5.3 <u>Per Named User Basis</u>. If the Server Software has been licensed on a Per Named User basis, then the following additional terms and conditions shall apply:
(a) If the Server Software is licensed on a Per Named User basis, then the allocation and identification of the individual Named User must be maintained by Customer on file at Customer's location for a minimum of thirty (30) days before the allocation and identification of the Named User can be moved or transferred to a different, separate and unique individual. The identified Named User may activate only one instance of the services of a Server from any Device at any location at any given point in time with each Named User CAL purchased. Multiple simultaneous instance activations of a Server by a Named User requires an equal multiple number of Named User CALs.
(b) CALs authorize access or use of only the specific Server Software associated with such CAL.

5.4 <u>Per Server Use Basis</u>. If the Server Software has been licensed on a Per Server Use basis, then the following additional terms and conditions shall apply:
(a) If the Server Software is licensed on a Per Server Use basis, then the maximum number of Devices that may access or utilize the services of the Server Software at a given point in time is equal to the number of Device CALs that have been purchased and designated for use for each Device with that Server. For the avoidance of doubt, one Device will require multiple CALs if the Device accesses or utilizes, directly or indirectly, concurrent sessions of the services of the Server Software. CALs authorize access or use of only the specific Server Software associated with such CAL. If any Software is licensed on a Per Server Use basis, and accesses any database or data source, then Customer must purchase the required access license for each database or data source accessed. Failure of Customer to purchase the required database or data source license is a material breach of the Agreement.

5.5 <u>Per Processor Use Basis</u>. If the Server Software has been licensed on a Per Processor Use basis, then the following additional terms and conditions shall apply:
(a) If the Server Software is licensed on a Per Processor Use basis, then for each processor residing on the Server, a separate Per Processor use license must be purchased. A Per Processor license will allow an unlimited number of Devices to accesses the services of the Server running the Server Software as long as a Per Processor license has been purchased, pursuant to the Transaction Document, License File, or License Certificate, for each processor running on the Server.

5.6 <u>Per Session Count Use Basis</u>. If the Software has been licensed on a Per Session Count Use basis, then the following additional terms and conditions shall apply:
(a) If the Software is licensed on a Per Session Count Use basis, then the maximum number of Devices that may access or utilize the services of the Server Software at a given point in time is limited by the number of Sessions specified in the License File. For the avoidance of doubt, one Device will require multiple sessions (and corresponding licenses) if the Device accesses or utilizes, directly or indirectly, concurrent sessions of the services of the Server Software.

5.7 <u>Per Core Use Basis</u>. If the Server Software has been licensed on a Per Core Use basis, then the following additional terms and conditions shall apply:
(a) If the Server Software is licensed on a Per Core Use basis, then for each processor residing on the Server, a separate Per Core use license must be purchased. A Per Core license will allow an unlimited number of Devices to access the services of the Server running the Server Software as long as a Per Core license has been purchased, pursuant to the Transaction Document, License File, or License Certificate, for each core running on the Server.

5.8 <u>Runtime Report Basis</u>. If the Software has been licensed on a Runtime Report basis, then the following additional terms and conditions shall apply:
(a) If the Software is licensed on a Runtime Report basis, the maximum number of Runtime Reports utilized by Customer per Server is limited to the Runtime Report count for the Software as specified in the License File, Transaction Document or License Certificate.

5.9 <u>Single Facility/Single Device Basis</u>. If the Software has been licensed on a Single Facility/Single Device basis, then the following additional terms and condition apply:
(a) If the Software is licensed on a Single Facility/Single Device basis, then the Software may only be installed and used on a single Device, which Device must be located at the Facility specified in the applicable Transaction Document. The Single Facility/Single Device license may be subject to further restrictions as set forth in the applicable Transaction Document.

5.10 <u>Enterprise License</u>. If the Software has been licensed on an Enterprise License basis, then the following additional terms and conditions shall apply:
(a) If the Software is licensed on an Enterprise License basis, the duration, scope and pricing of such Enterprise License will be determined on a case-by-case basis. An Enterprise License is granted upon Customer's receipt of a written authorization for such Enterprise License, which must be signed by AVEVA and also countersigned by Customer. Among other things, the signed written authorization will describe the duration, scope and license fees for the Enterprise License and Customer's Software support commitments under the Enterprise License.

5.11 <u>Site License</u>. If the Software has been licensed on a Site License basis, then the following additional terms and conditions shall apply:
(a) If the Software is licensed on a Site License basis, the duration, scope and pricing of such Site License will be determined on a case-by-case basis. A Site License is granted upon Customer's receipt of a written authorization for such Site License, which must be signed by AVEVA and also countersigned by Customer. Among other things, the signed written authorization will describe the duration, scope and license fees for the Site License and Customer's Software support commitments under the Site License.

5.12 <u>Facility License</u>. If the Software has been licensed to a specified Facility, then the following additional terms and conditions shall apply:
(a) If Customer's license of the Software is restricted to a specified Facility, then the Software may only be installed at the Facility specified in the applicable Transaction Document.

5.13 <u>Educational license</u>. If Customer wishes to acquire the Software for educational purpose only, please contact AVEVA's organization or its authorized reseller serving Customer country. In case the Software is identified as an academic or educational software, Customer must be a qualified educational user to be entitled to use said Software; if Customer is not a qualified educational user, Customer has no rights under this Agreement with respect to said academic or educational software. To determine whether Customer is a qualified educational user, please contact AVEVA's organization or its authorized reseller serving Customer country. Once licensed to use said academic and educational Software, Customer may not sell or transfer any such Software or sub-license Customer license right to use the same to anyone except to another person who is qualified by AVEVA as a qualified educational user. As used in this Agreement, the term 'person' shall be broadly interpreted to include without limitation any individual, any corporation, company or other legal entity.

5.14 <u>License for Field-Test / Beta Version</u>. If Customer has acquired a license for field-test / beta version purpose, Customer acknowledges and agrees that the Software licensed to Customer under such license is a pre-release software only. As such, said Software may not be fully functional and Customer assumes the entire risk as to the results and performance of the Software. Customer may install and use the Software licensed to Customer under a field-test / beta version license on computers in Customer's workplace for the only purpose of testing said Software before it is commercialized by AVEVA and potentially identifying any errors, bugs or defects in said Software. Customer also agrees to use reasonable efforts to provide feedback to AVEVA regarding Customer use of the Software, including a prompt report to AVEVA of errors, bugs or defects that Customer might find. Therefore, notwithstanding anything in this Agreement to the contrary, Customer may not distribute or transfer any applications Customer creates with the Software licensed to Customer under a field-test/beta version license. AVEVA will not update the Software licensed to Customer under a field-test/beta version license, nor will AVEVA provide support in relation thereto. The Software licensed to Customer under a field-test/beta version license may contain code that will, after a certain time period, deactivate the Software and render it unusable. Although said Software may attempt to warn Customer of the time frame in which it will be disabled, Customer acknowledges and agrees that said Software may be deactivated or rendered unusable with or without warning. Upon such deactivation, this Agreement will be considered terminated. Prior to deactivation of the Software Product, Customer may contact AVEVA to convert Customer field-test/beta version license on the Software to a standard license governed by this Agreement on the final release of said Software if and when available from AVEVA by paying to AVEVA the applicable license fee (if any) and obtaining from AVEVA the relevant activation code(s).

The services of the Server Software are considered to be accessed or utilized when there is a direct or indirect connection between a Device and the Server Software running on the Server (regardless whether the Server Software is accessed or utilized using the Device Software, Third-Party Products or an application developed by the Customer). One CAL is provided with a single Server license, which must be dedicated to a single Device. The main function of this Utility is to notify the user when an update for the Software is available, and, the Utility also allows the Customer to participate in the AVEVA program to improve the user experience of its software products. Participating in this improvement program means that the Utility informs AVEVA about: the hardware and software configuration of the user's PC; which features and options of the software product and the Utility are used; and any error reports relating to the software product and the Utility. AVEVA uses this information to speed

up improvements to the products and features customers use most often. Customer may elect to receive automatic notifications of updates to the Software by selecting the Schneider Electric Software Update utility as one of the Core Components at installation of the Software. Furthermore, Customer may opt out of the Utility at any time after it has been installed by revoking participation in the Utility settings. The technical documentation for the Software provides information about the presence of the Utility in the Software, and specifically, what information is being collected; this documentation is available to Customer upon request to AVEVA.

The personal data, if any, collected by Schneider Electric through the Utility is subject to Schneider Electric's Privacy Policy (located here: https://www.se.com/ww/en/about-us/legal/data-privacy.jsp); any personal data received by AVEVA through the Utility is subject to AVEVA's Privacy Policy (located here: https://www.aveva.com/en/legal/privacy-policy/).
